

SECRET FACT

Earth: made to measure

Only for the Little Planets Crew

1. It's in the 'habitable zone': not too close, not too far for liquid water.

2. Its magnetic field deflects much of the solar wind.

3. The Moon helps stabilize its tilt and seasons.

"He created it not in vain, he formed it to be inhabited." — Isaiah 45:18

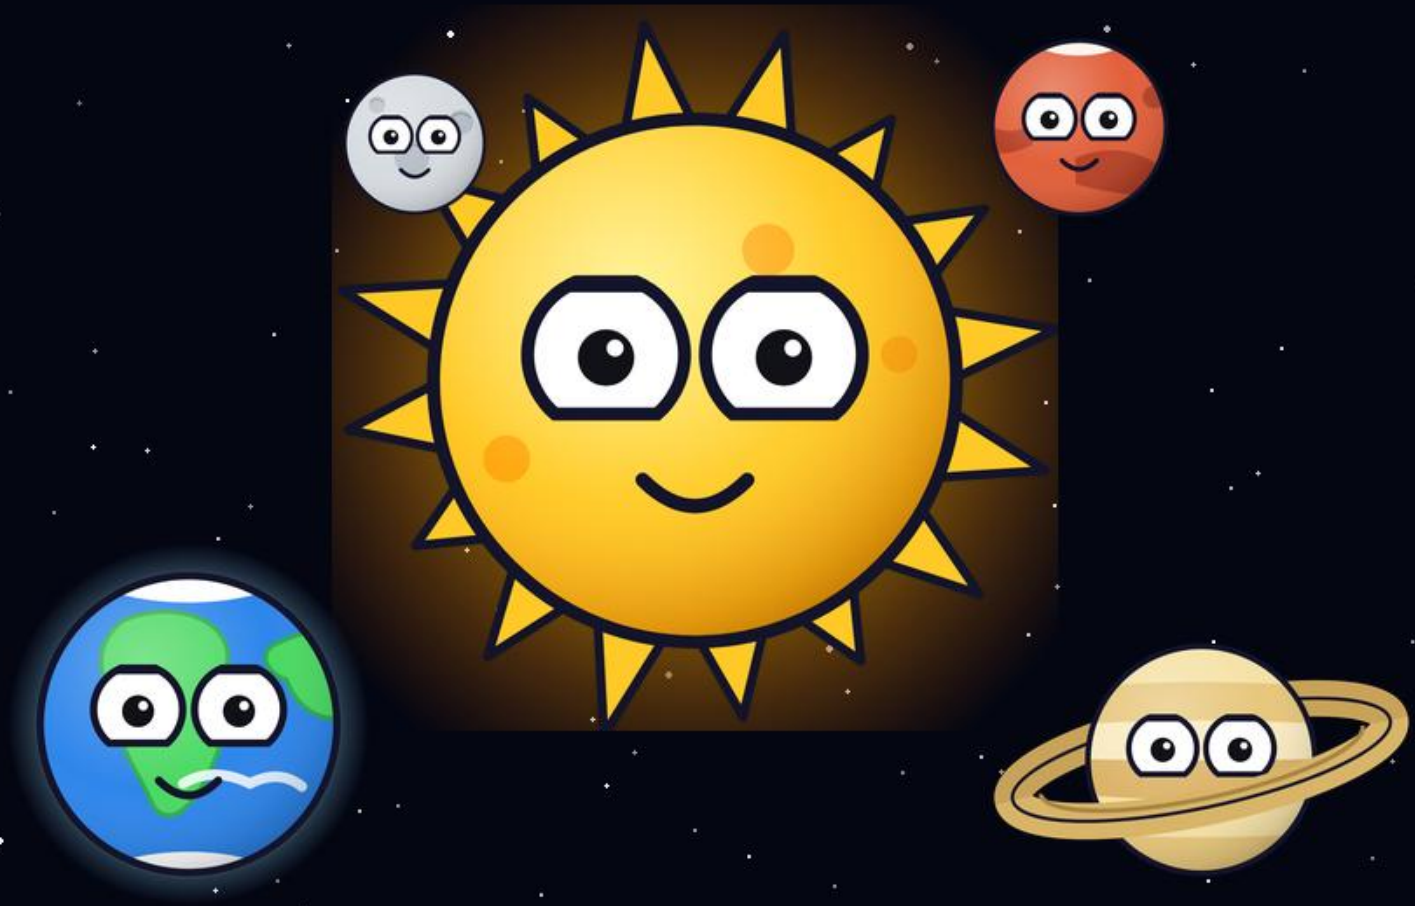

YOUR MISSION

Challenge: what amazes you most about Earth? Reply in one word
