

SECRET FACT

3 secrets of Venus

Only for the Little Planets Crew

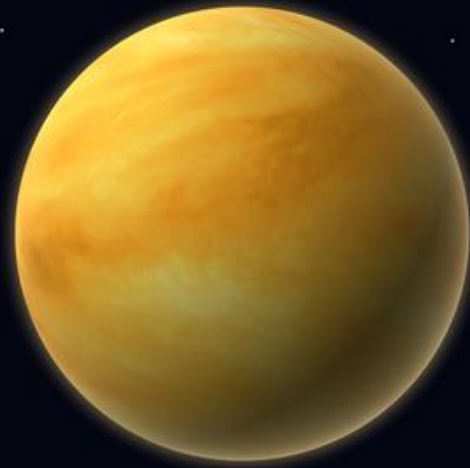

1. Venus spins backwards: the Sun rises in the west there.

2. Its air is so thick that standing there feels like being 900 m under the sea.

3. It's the brightest planet in our sky after the Moon: people call it the 'morning star'.

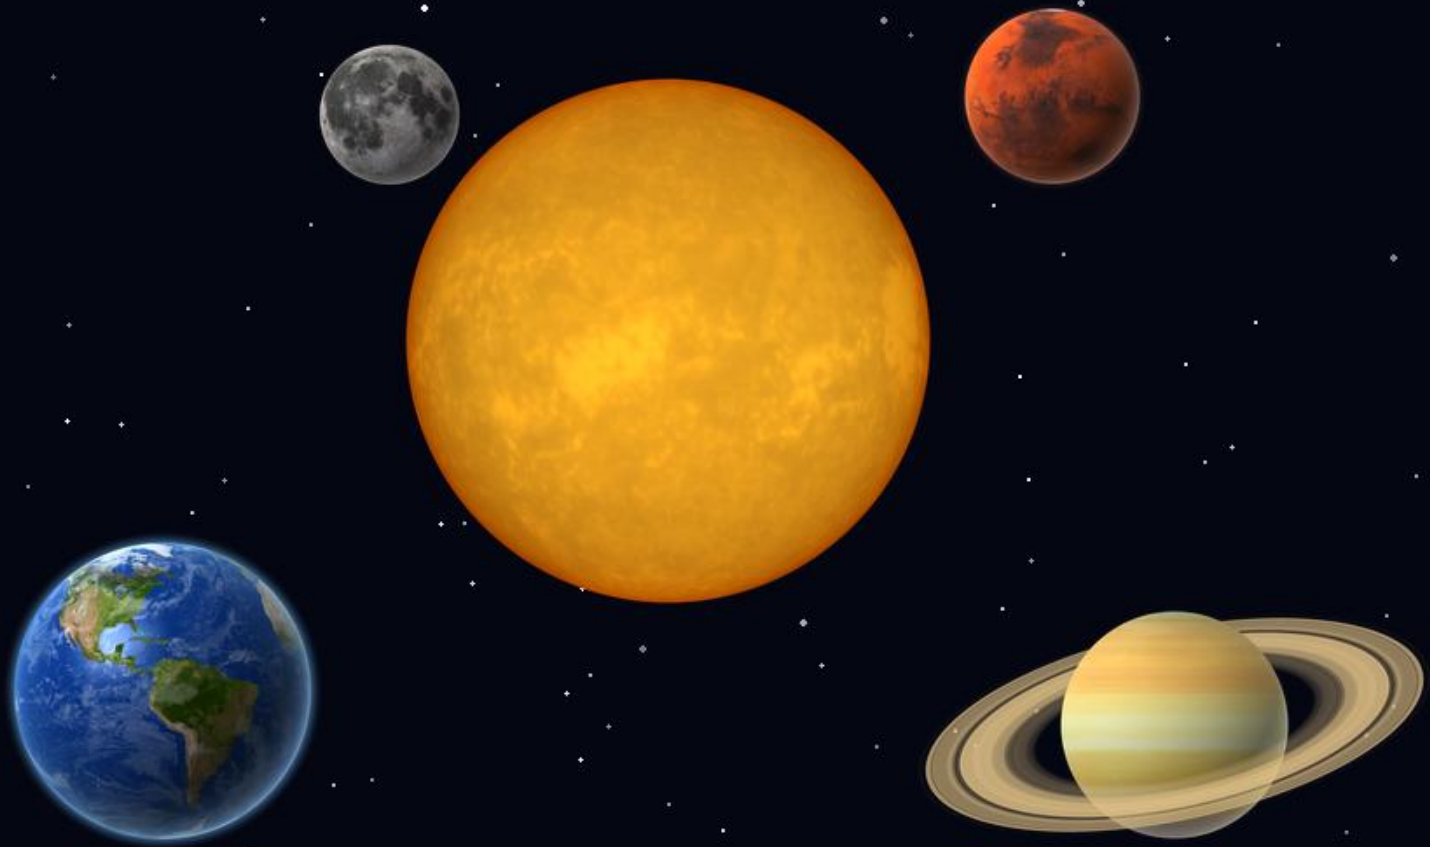

YOUR MISSION

**Challenge: look for it at dawn or dusk
this week. Found it? Message me 'I
SAW IT'**

Reply in this chat

WELCOME TO THE CREW!

**You're now one of the
Little Planets explorers**
